**HTC Offers Windows Mobile 6 Upgrade  
Users of 838Pro, D810, P800W and U1000 get free upgrades**

**Singapore, 11 July 2007** - High Tech Computer Corp. (TAIEX: 2498; "HTC"), the world's leading provider of Microsoft® Windows Mobile® smart handheld devices, today announced that with effect from July 10, 2007, HTC will progressively offer ROM code downloads for free to existing users of 838Pro, D810, P800W and U1000. This will enable them to upgrade from the existing Windows Mobile 5 in their devices to the latest operating system - Windows Mobile 6.

Consumers can access <http://www.asia.htc.com/asia/event/WM6/index.html> to download the ROM code and relevant applications. Prior to the upgrading of operating system, HTC would like to remind consumers to backup their personal data as the data will be deleted after the upgrade. Downloads for the different devices are available according to the following schedule:

- July 10 : D810
- July 12: 838Pro
- July 13: P800W
- July 20: U1000

"Upgrading to the Windows Mobile 6 operating system will enable users of 838Pro, D810, P800W and U1000 to enjoy greater mobility. Used with the Microsoft Exchange Server 2007, this will also enable businessmen to better manage the business information with greater effectiveness. By leveraging on our innovative and functions-rich products, our customers can stay well-connected to the world. In the future, we will continue to launch high-quality and fashionable products that satisfy consumers' pursuit for a stylish and mobile lifestyle," says Jack Tong, Vice President, Sales & Marketing of HTC Asia.
